

Analytics Evidence PG8 - Notification of Failure of Scheduled Reports and Dashboards

Created By: Igelu-Eluna Analytics
Created on: 3/19/2019

Need a way to receive notifications when scheduled reports and/or dashboards have failed.

This is already available for Alma Analytics and should be available for Primo Analytics as well to show consistency across platforms

status: open

priority: medium

subject area: general

SalesForce Case 475815

Use Case:

Users want to be emailed when scheduled report and/or dashboards fail to run as they are for Alma Analytics.
