

Analytics Evidence PG6 - Publish Primo Data Snapshot Timestamp to Primo Analytics

Created By: Igelu-Eluna Analytics
Created on: 1/15/2019

Case 406329

Use Case:

Primo users would like to see the time of the last ETL from Primo to Primo Analytics similarly to how this is displayed in Alma so that users know what snapshot of data they are querying.

status: open

priority: high

subject area: general
