

Analytics Evidence AGSA11 (Leganto) - Date Dimensions are inconsistent

Created By: Igelu-Eluna Analytics
Created on: 1/23/2019

Users would like to be able to report on all transactions by date/day/time.

In some subject areas dates and date ranges cannot be user-defined. They are pre-defined as 'Year', 'Week' etc. Example: Leganto subject areas.

See also [Alma](#) and [Primo](#) evidence and [the Working Group's proposal for a consistent approach to dates in the future](#).

Ex Libris Response at ELUNA 2018 and subsequent meetings:

Ex Libris is committed to improving the handling of date fields.

The Working Group sent specific examples where the date fields are not consistent. [Alice Tippitt](#) has volunteered to work on this list.

status: in process
priority: high
subject area: general
