## Link Directly from SFXAdmin to the Primo Central Collection Activation Page

- **Product:** SFX, Primo
  - **Relevant for Installation Type:** All
- 

### Description

Primo customers can add their PCKey and Customer ID to SFXAdmin to link directly from SFX to the Primo Central collection activation page (institutional profile).

This provides a quick and convenient way to access and activate your collections for searching for and linking to full text.

### To enabling the link:

1. From the SFX homepage, select **Primo Central > Configuration** and select **Add additional PC Key**.
2. Enter your PC Key and your Customer ID and click **Save**. (Your PC Key and Customer ID are already saved to your Primo Back office, so you can simply copy them from there.)
3. The Primo Central Collections List link appears on the SFX homepage. Click the link to access the Collections List in Primo Central.

You can add more than one PC Key to connect to different institutional profiles on Primo Central, if, for example, you work in a consortium environment.

### Additional Information

For more information about the Primo Central collection activation page, see [Primo Central Collection Activation](#).
