

Tell the Leganto story with an Infographic

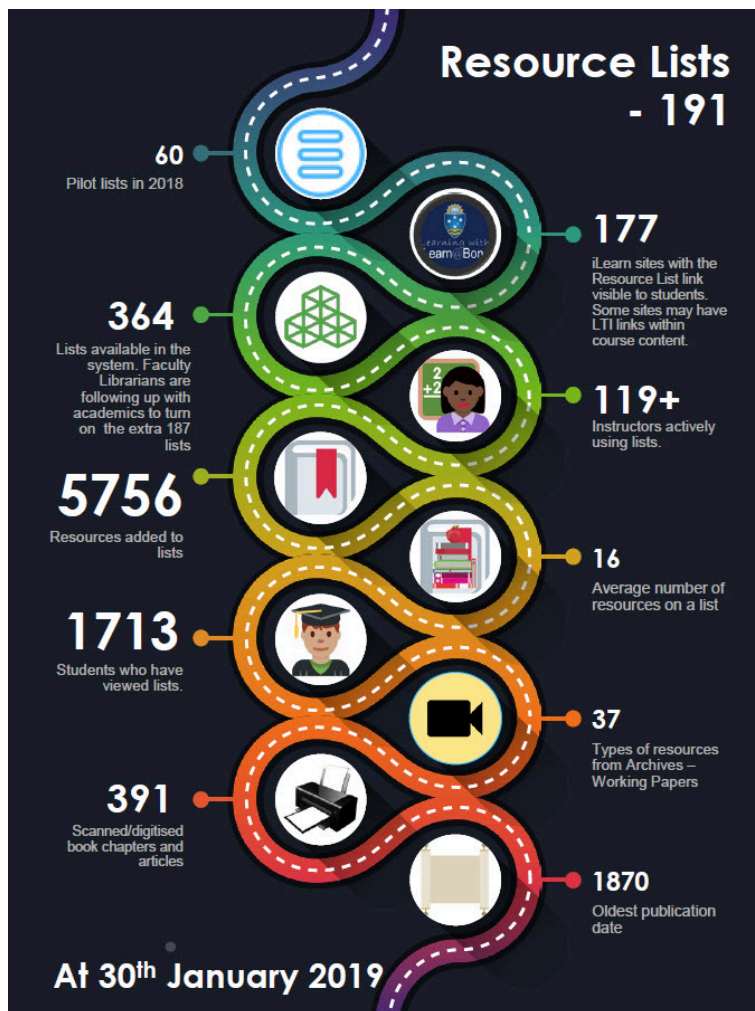

Created By: Peta Hopkins
Created on: 1/31/2019

Here is an example infographic we prepared for telling the story of our Leganto rollout with academics and the Learning & Teaching Committee.

Most of these figures were obtained via Alma analytics, however some we rely on reports from the learning management system eg. visibility of the Leganto link in subject sites.

This was created in Powerpoint using one of its infographic templates.

Hint: 191 is local shorthand for the first trimester in 2019 which kicked off on the 7th January. This is our first trimester following the pilot.

This was supplemented with more standard tables/pie charts for Faculty break-down of numbers.
