

Do I need to sign in to view *Research Professional?

- **Product:** *Research Professional
-

Question

Does *Research Professional require me to sign in?

Answer

You do not need to login to access the *Research Professional service. You can also view the news content and browse the funding database as a guest user. Guest access is only available if you are using a computer within the network of a subscribing institution.

However, accessing as a guest users does have some limitations as you will not be able to save your work, or sign up to any email alerts. To make the most of the service, we recommend you login with your own personal user account. You can find more information on how to set up an account [here](#).
