

Shibboleth Metadata

We accept the following attributes for the purposes of linking an individual's Shibboleth identity with the *Research Professional attributes:

EPPN

ePTID

Persistent ID

Mail

We are members of the following access management federations:

Australian Access Federation

ACOnet Identity Federation (Austria)

Canadian Access Federation

Edugate (Ireland)

Tuakiri (New Zealand)

SIR (Spain)

SURFnet (Netherlands)

SWAMID (Sweden)

UK Access Management Federation

We are also members of [eduGAIN](#), a service which connects a number of identity federations from around the world. [Visit the eduGAIN website](#) for more information about the service and to see which federations are currently members.

If you are interested in setting up Shibboleth access to *Research Professional for your institution, you can use the Ex Libris Support Web Form to make your request via this link: https://support.proquest.com/s/rp?language=en_US.

If you are based at a UK institution and would like to find out what attributes your institution's IDP releases, please read [these instructions on using the UK Access Management Federation's testing tool](#).
