

## 06 수서 인보이스 워크플로우

Duration: 13 min.

<b>Description</b>	In this session, we'll talk about how the Alma invoicing workflow governs the way an invoice is handled from the point of its creation to the point at which the invoice is paid. The invoicing process is flexible, depending on your needs, and we'll review some of the more common invoicing configurations available to you.	
<b>Target Audience</b>	Invoice Operators, Operators Extended, and Managers Receiving Operators Acquisitions Administrators General System Administrators	
<b>Prerequisites</b>	<a href="#">Acquisitions: Creating Invoices Manually (New UI)</a>
