## Difference between Voyager Fines/Fee Notices and Fines/Fee Statements

- **Product:** Voyager
  - **Product Version:** 8
  - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
- 

### Question

What is the difference between Fines/Fee *Notices* (Circjob 4) and Fines/Fee *Statements* (Circjob 14)?

### Answer

Circjob 4 checks for any *new* fines or fees that have been incurred since the previous run of the job.

A notice is automatically generated when a new fine/fee is incurred by a patron. This job is designed to be run daily and is typically included in Circjob 12 ("All Daily Jobs").

Circjob 14 produces statements that include *all* fines/fees owed by the patron. This job is designed to be run less frequently than daily and is not included in Circjob 12.

Many libraries run this job quarterly or semi-annually, according to local policies and best practices.

### Additional Information

See the [Reporter User's Guide](#).
