
Obtain the DBKEY for working with Voyager Web Services

- **Product:** Voyager
 - **Product Version:** 8
 - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
-

Question

How do I obtain the DBKEY for working with Voyager API Web Services?

Answer

- Determine your Voyager Web Services port number (e.g., 7014)
- Run the DB InfoService API Call in your browser as documented in this [Ex Libris Developer Network Web Service Description](#).
- Example:

```
http://10.100.3.999:7014/vxws/dbInfo?option=dbInfo
```

- The DBKEY will be displayed in the response.
- Example:

```
<dbKey>MAST20001DB20020910109999</dbKey>
```

Additional Information

Please note that Voyager Support has a limited ability to assist with the Voyager APIs. We can help identify the APIs that might be useful to you, and provide basic troubleshooting aid. [Voyager-L](#) and [Developer Network](#) are useful resources for obtaining additional assistance.
