
Analytics Evidence S12 - Make open access facet statistics available

Created By: Igelu-Eluna Analytics
Created on: 5/16/2019

SalesForce Case Numer: 459352

It would be great to be able to look at usage stats for Open Access facet(s) in Summon searches. Since the "Is Open Access" facet is already available in the OBI interface, it makes sense for this functionality to be added to the enhancement list. Considering that Open Access materials are becoming more important globally, and in our library we are looking into raising the profile of our Open Access resources in general, being able to report on statistics would be great for us.
