

Solr Admin UI

- **Product:** Rosetta
 - **Product Version:** 6.1
-

Question

Where can I find detailed information about my solr (IDX) servers?

Answer

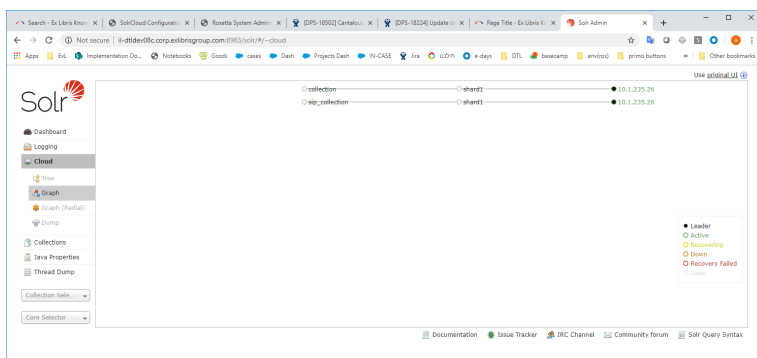

Solr Admin UI (web console) can be accessed by a web browser via `<rosetta_domain>:<solr_port>/solr`

user name = **slr**

You can find your password in the server in `/exlibris/dps/d4_1/system.dir/conf/solr/prop/solr-admin-users.properties`

e.g.

Here we can see that we have SolrCloud set up.
