
Debugging Citation uResolver Links

- **Product:** Alma, Leganto
-

Question

How can you debug a citation's uResolver (OpenURL) link?

Answer

In Leganto -

1. Edit the citation.
2. Copy the uReslover link from the 'Source' field at the right pane.
3. Paste the URL in a new tab. At the end of the URL, add `&debug=true` and press Enter.
4. Select **Debug** at the start of the page.

In Alma -

1. On the Edit Citations (**Fulfillment > Courses > Citations**) page, open the **Other** tab.
 2. Select the square button at the end of the link. The URL opens in a new tab.
 3. At the end of the URL, add `&debug=true` and press Enter.
 4. Select **Debug** at the start of the page.
