

Is it possible to change an item due date past the user expiration date in Alma?

- **Product:** Alma
-

Question:

Is it possible to change an item due date past the user expiration date?

Answer:

Currently this is not an option. In order to have a date past the user expiration date, the user expiration date must be modified and then the loan can be modified to a new due date.

Additional Information:

Do note: Though changing a due date via API can circumvent this restriction, it will be corrected the next time the Due Date Correction after Calendar Change job is run.

Understand more about user expiry date in [Managing Users](#).
