## Enable Citation Linker on the Primo Main Menu

- **Product:** Primo
  - **Product Version:** 4.4.1 and later
- 

### Desired Outcome Goal

To enable Citation Linker on the Primo Main Menu.

### Procedure:

1. Primo > Ongoing Configuration Wizards > View Wizards
2. Edit the View of interest > proceed to the Tiles screen > Home Page > Main Menu tile
3. Edit the Main Menu Tile

4. Create new entry with the following values:

Code=citationlinker  
URL= [see #5 below]

5. If the source data is Alma:

For Classic UI:

/action/citationLinker.do?openInSeperateWindow=Y&isCitationLinker=Y

For new UI:

/citationlinker?

---

### Note

For the Classic UI:

To use the CSS defined for the Services Page view, append the following parameter to the URL:

&spvid=<view\_id>

To use the CSS defined for the Services Page defined in Alma, append the following parameter to the URL:

&spvid={services\_view\_code}

---

6. After initial save, change the label 'citationlinker' to 'Citation Linker' (or another label)
7. Continue through the View Wizard and DEPLOY

---

**Note**

\* Applies to Primo 4.4.1 and later.

\* Citation Linker retrieves SFX or Uresolver information.

For best results, search portions of the citation such as ISSN, ISBN or date along with a title.

\* Citation Linker Tabs can be relabeled via Primo Code Table for CitationLinkerLabels.

---

---

## Additional Information

Back Office Guide > Additional Primo Features > Citation Linker Lightbox > Configuring the Citation Linker
