

Generic XML Tips : Lower-Case

Created By: Joan Kolarik
Created on: 2/08/2020

Please send suggestions and improvements to joan.kolarik@weizmann.ac.il

```
rule "type"  
when  
  exist "//*[local-name()='genre']"  
then  
  copy "lower-case(//*[local-name()='genre']/text())" to "dc"."type"  
end
```
