
Change print footer in Tomcat WebVoyage

- **Product:** Voyager
 - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
-

Question

How to change the footer information ("Institution Name", and etc.) in the print footer in Tomcat WebVoyage.

Answer

Edit the printCommon.xsl file located in the following folder: /m1/voyager/xxxdb/tomcat/vwebv/context/vwebv/ui/en_US/xsl/printFormats

Additional Information

This is the stanza you will need to edit:

```
<div id="printFooter">
  <div class="customContent">
    <label>Institution Name:</label>
  </div>
  <div class="customContent">
<label>Institution Address:</label>
  </div>
<div class="customContent">
  <label>Institution Web Site:</label>
  </div>
<div class="customContent">
  <label>Institution Phone:</label>
  </div>
```
