
Content Roadmap Plans

As part of a new initiative in Content Operations, below is a list of collections that are planned to be released as part of the coming quarter.

Our goal is to provide such a list at the start of each quarter to allow better transparency of our plans and what is scoped for the coming quarter.

This list is dynamic and subject to possible changes, depending on the availability of the records and questions that may arise as we work through the ingestion process. Currently, while we work to learn and adjust to the community needs for such a list, the table below is only a partial representation of the new content that has been scoped for ingestion into the Ex Libris products.

A "V" mark indicates that this content is planned to be ingested to these products in the coming quarter.

We have also added a status update for the past quarter to inform the community of our progress.

The full lists of ingested content continue to be available weekly as part of the relevant Release Notes.
