

How do I grant admin rights?

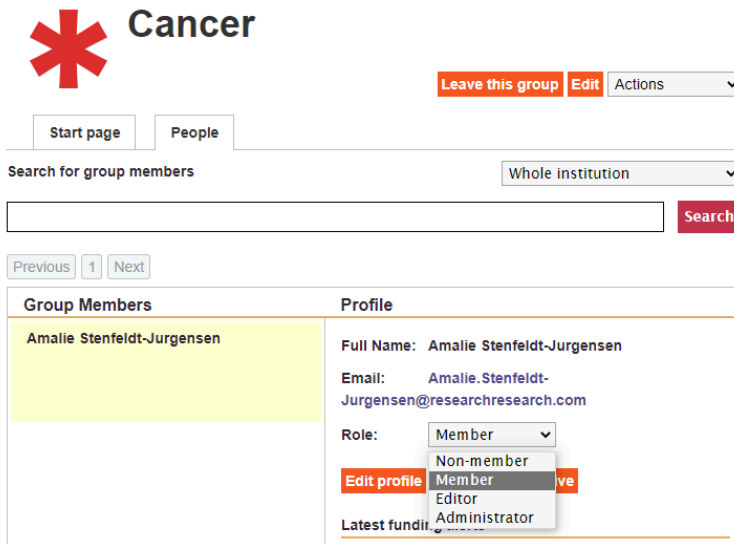

Question

How do I grant admin rights?

Answer

As an *RP administrator you can grant other users admin rights. To do so you need to:

- Go to **Our Institution**
- Select the workgroup you want to assign an administrator to
- Open the **People** tab
- Select **Whole institution** from the dropdown menu
- In the search field type in the name or email address of the user you want grant admin rights
- In the profile section change their role to **Administrator**
