

Other Classifications

The Other Classifications table is a dimension table that contains fields for classification systems other than LC and Dewey. Like LC and Dewey classifications, you can drill down to different levels, or groups. At each level, the measures associated with the selected group are displayed.

Other Classifications

Field	Description	Additional Information	Mapping from MARC 21	Data Type	Data Size
Chinese Classifications					
Classification Code	The Chinese classification code.	If the code is not found or in an incorrect format <code>Unknown</code> is displayed.	The 090 \$a and 093 \$a fields in the MARC record. (For CNMARC, the 690 \$a field.)	VARCHAR	50
