This removal will be permanent, and is performed by a job that runs in the background. In addition, for each reading list in the Recently Deleted lists group, an indicator now tells you how many days are left before the system will remove the reading list.

**Amedeo Modigliani: his life and art (Rolled Over)**

Amedeo Clemente Modigliani (1884-1920) was an Italian Jewish painter and sculptor who worked mainly in France. His main subject was portraits and full figures of humans, both in the images and in the sculptures. During his life, Modigliani had little success, but after his death he achieved greater popularity.

In this course, we will learn about Modigliani's life, talk about the impact of other artists on his work, and explore the body of the art he has created.
