

2020 Knowledge Days

In light of the cancelation of the Knowledge Days conference, Ex Libris is providing the complimentary “Best of Ex Libris Knowledge Days” webinar series, where we take our most popular sessions and present them as live, virtual classes throughout the months of May and August 2020.

You'll find links to recordings and handouts from sessions here as the series continues. You can also watch the videos with closed captions on YouTube - [Best of Ex Libris Knowledge Days 2020 playlist](#).

.....
[Letter Configuration and XSL Customization](#)

Description:

Letters sent via Alma may be configured in multiple ways. In this session we will show how to add fields to the letters which are not in the default versions. We will also use advanced XSL features to add fields on condition, change the formatting of the text, concatenate fields, and add conditions in the XSL whether or not to print the letter. All examples will be done live and we will see the configuration and results together. While making these changes we will see how to preview configuration changes to the XSL before actually sending the letter.
