

## ARC 3rd party products on MFT

- **Product:** Aleph Reporting Center
  - **Product Version:** 4, 4.5
  - **Relevant for Installation Type:** Multi-Tenant Direct, Dedicated-Direct, Local, TotalCare
- 

### Description

The distribution of 3rd party products is moving to MFT (Managed File Transfer).

Ex Libris MFT provides a secure and reliable file transfer infrastructure to support the different Ex Libris products.

The util SP is updated to use the Ex Libris MFT servers with SFTP, instead of old FTP servers.

### Installation instructions

This package implements the needed updates in the 'util SP' of ARC 3 and 4 - to use the Ex Libris MFT (Managed File Transfer) servers instead of old FTP servers, when downloading 3rd party products.

#### Usage:

- Download the patch tar file: `arc_3rd_party_mft_patch.tar` to ARC server (3 or 4)

(you can use your `$HOME` directory).

- Extract the tar file `arc_3rd_party_mft_patch.tar` by the command:

```
tar -xvf arc_3rd_party_mft_patch.tar
```

- Run the installation script by the command:

```
source arc_3rd_party_mft_patch_install.csh
```

or by:

```
csh -f arc_3rd_party_mft_patch_install.csh
```

### Additional Information

For installation of Service Packs for ARC 4.0 from MFT consult [ARC 4.0 MFT patch](#)

**Note:** port 10022 needs to be open for outgoing access to the Ex Libris MFT servers in order to enable the new mechanism.
