
Voyager to Alma Migration Query: Circ, Cat and Acq Happening Locations

Created By: Laura Guy (contact)
Created on: 12/10/2020

When you migrate from Voyager to Alma it may be helpful to know your Voyager Circ, Acq and Cat Happening Locations.

The following three queries can be run using Voyager Prepackaged Access Reports.

Cat Happening Locations:

```
SELECT CAT_POLICY_LOCS.CATALOGING_LOCATION, CAT_POLICY_LOCS.LOCATION_ID,
LOCATION.LOCATION_NAME
FROM CAT_POLICY_LOCS INNER JOIN LOCATION ON CAT_POLICY_LOCS.LOCATION_ID =
LOCATION.LOCATION_ID
WHERE (((CAT_POLICY_LOCS.CATALOGING_LOCATION)="Y"));
```

Acq Happening Locations:

```
SELECT ACQ_LOCATIONS.ORDER_LOC, ACQ_LOCATIONS.LOCATION_ID, LOCATION.LOCATION_NAME
FROM ACQ_LOCATIONS INNER JOIN LOCATION ON ACQ_LOCATIONS.LOCATION_ID = LOCATION.LOCATION_ID
WHERE (((ACQ_LOCATIONS.ORDER_LOC)="Y"));
```

Circ Happening Locations:

```
SELECT CIRC_POLICY_LOCS.CIRC_LOCATION, CIRC_POLICY_LOCS.LOCATION_ID, LOCATION.LOCATION_NAME
FROM CIRC_POLICY_LOCS INNER JOIN LOCATION ON CIRC_POLICY_LOCS.LOCATION_ID =
LOCATION.LOCATION_ID
WHERE (((CIRC_POLICY_LOCS.CIRC_LOCATION)="Y"));
```

For other queries that may be useful, see my "Surviving Almanado: tips for a successful pre-implementation" presentation's [Accompanying Materials](#).

Posted as is. If you need assistance in running custom SQL queries in Prepackaged Access Reports, consult the Voyager Customer Listserv.
