

February 2021 Release

e-Activation Tasks Bypassed

February 2021 Rialto

Institutions no longer have to go through the manual profile activation step after MD import takes place. This step is now bypassed automatically. If your library workflow requires this step and you would need to reintroduce it, please contact customer support.

Access Model Sent as Part of the Order

February 2021 Rialto

Now the marketplace license as appears on the offer is mapped to the "Access Model" field on the PO Line. This helps you make sure that the correct access model (license type) is sent with the order, so you can monitor what license level was purchased from the PO line.

Wolters Kluwer Ovid Available Soon in the Rialto Marketplace

February 2021 Rialto

Thousands of ebooks from the Wolters Kluwer Ovid platform will be enabled for acquisition through the Rialto marketplace on February 8th, 2021. This expansion of Rialto offerings is important now more than ever before as librarians meet the demands from students and faculty for ebooks and other digital media for remote learning. Please contact Rialto customer support to enable the new platform, if you are unable to purchase.

Wolters Kluwer Health is a leading global provider of information, business intelligence and point-of-care solutions for the healthcare industry. Wolters Kluwer Ovid offers ebooks from scholarly publishers in a range of disciplines in the health sciences, including medicine, nursing, and pharmacology.

Support for Multiple ISBNs in ISBN Search Added

February 2021 Rialto

Now you can search for several ISBNs at once. To do that, enter more than one ISBN into "ISBN" marketplace search, and

place "OR" before the list of ISBN numbers:

This can help you search in bulk in cases such as when coming from a reading list or excel list of ISBNs, or when your reading list includes both 10 and 13-digit ISBNs: both ISBNs can be added to the ISBN market search.

The number of ISBNs that you can search for is limited to 256 characters in total (the length of the browser call).

See [Searching the Marketplace](#).

Publication Year Range Added to Work Search Results

February 2021 Rialto

Now the work search results display a range of publication years for the offers included in it.

If the work only contains one offer and the publication year has not been provided, then a range display will not appear and the space will be blank.

Fund and Rush Facet Added to Order History

February 2021 Rialto

The Fund and Rush facets were added to the **Order History** page:

- The Fund facet allows you to refine your order history by fund used, for better visibility of spend from a particular fund in Rialto.
- If you are configured to allow for rush purchases, you are now able to refine the order history by whether or not rush shipment was requested for an item.

The screenshot shows an 'Order History' page with 15 items. The left sidebar has a 'Fund' filter highlighted with a red box. The main content area shows a list of orders with details such as item number, title, author, and order date.

Updated Counts at the Work Level

February 2021 Rialto

After performing a search, facet counts now reflect the total count for offers within the works presented. Work counts at the top of the work results remain the same, however a tool tip has been introduced next to this number to clarify count discrepancies.

The screenshot shows a search results page for 'Market' with 6,343 results. A tooltip is displayed over the facet count '1', explaining that the total number of offers in these work groups is 1482 and that the facet panel provides a breakdown of offers by categories.

Dewey Decimal Enhancement

February 2021 Rialto

Now you are able to query for and refine your search results by numbers to the right of the decimal in the Dewey Decimal System. This allows you to more accurately search for and identify desired materials with reduced clicks.
