Question

How do I see which students are enrolled in a Course?

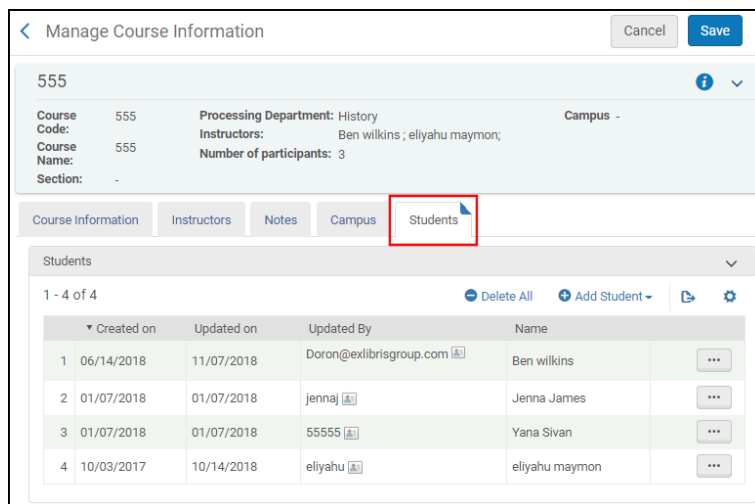

Answer

To see which students are enrolled in a Course:

- Go to Configuration Menu > Fulfillment > General > Other Settings
- Set `display_course_students` to **true**

This applies to students using LTI links or to students enrolled using the Course Enrollment job.

Now you'll see a new Students tab under Course Information:

The screenshot shows the 'Manage Course Information' interface for course 555. The 'Students' tab is highlighted with a red box. Below the tabs, a table lists the enrolled students with columns for Created on, Updated on, Updated By, and Name. The table contains 4 rows of data.
