## Disencumbrance Fund Transactions do not have Reporting Code

- **Product:** Alma
- 

### Question

Creating a financial report based on Reporting Codes in the Funds Expenditure subject area - it looks like the Disencumbrance lines never have the reporting code registered. The Po Line has a Reporting Code, and other transaction types contain it. What is the reason?

### Answer

The development team advises that a dis-encumbrance can be related to few invoices with different reporting codes. For this reason, no reporting code on disencumbrances exists.
