

How to change/fix dashboard with link to a new page

- **Product:** Alma

In order to change a linked report that opens in a new window to be either **Embedded in section** or **Link – Within the Dashboard**, you need to edit the relevant dashboard.

On the **Compound View** of the relevant report, click on the **Properties** button

And from the **Display Results** drop-down menu choose **either Embedded in section** or **Link – Within the Dashboard**

Then save the Dashboard
