

Requirements for Primo 4 Installation

This document describes the requirements for Primo installation and its use.

Before purchasing and installing the hardware and operating system, confirm the hardware and operating system requirements with your Ex Libris representative.

Note

These requirements may change because of Ex Libris development demands.

In addition, you must fill out and return the Request for Primo Installation form to Ex Libris, either electronically or via fax, prior to installation.

This guide includes the following sections:

- [Server Hardware and Software Requirements](#)
- [Client Hardware and Software Requirements](#)
- [Communication Requirements](#)
- [Installation Requirements](#)
- [Responsibilities Checklist](#)
