

Working File: Exploro November 2021 Release Notes

Upcoming Issues to Note

December 2021 Sneak Preview

The upcoming December release will include features such as:

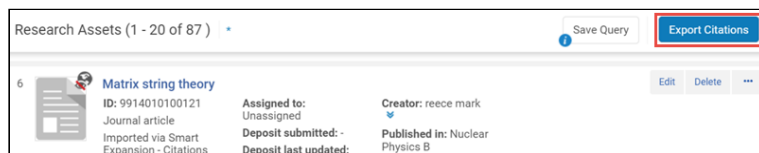

- New profiles search page
- New section in the home page
- Depositing assets through SWORD protocol

Main Features

Export Citations

November 2021 Management

You can now export citations from asset search results, by selecting **Export Citations**.

Export Citations Button

After exporting, an email is sent to the researchers with the list.

Citations List Email

You can configure the citations from **Configuration > General > Citations Format**.

Citation style

Citation style *

Include assets hidden from profile

Send to email *

Configure Citations

By default, the **Include assets hidden from profile** checkbox is not selected. This causes only citations for assets marked **Display in profiles** to be exported.

Visibility

Display in portal **Display in profiles**

Display in profiles

For search results via the researcher (e.g., after right clicking a researcher and selecting **View Assets**), both the asset **Display in profiles** and the researcher **Display in profile** checkboxes must be selected for the citation to be exported.

Display in profile	Name
<input checked="" type="checkbox"/>	Davisson, Robin L 

Display in profile

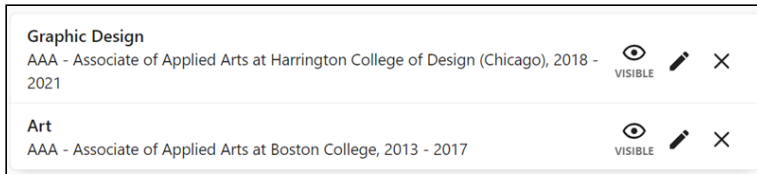

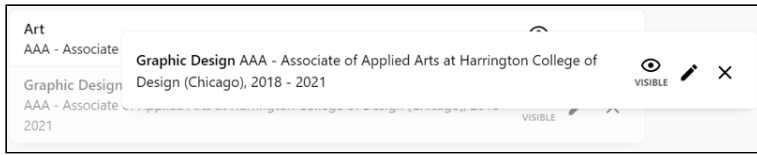

If the **Include assets hidden from profile** checkbox is selected, all citations are exported.

The number of citations is limited to 500. For more information see [Exporting Citations](#).

Reorder Education Records in the Portal

November 2021 Researcher Profiles

Education record entries that display on the Researcher Profile can be reordered in the Education section in the portal.

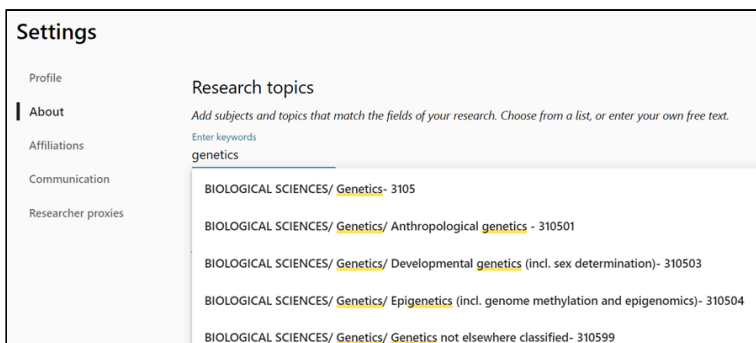

Reorder Education

The reordered entries are reflected in the Esploro research hub.

Revised List of ANZSRC Research Codes was Added for Researcher Profiles

November 2021 Researcher Profiles

When editing a researcher profile, the revised ANZSRC research codes are available for input.

Research Topics

Research codes from the previous list will still be displayed.

Note

When editing a draft that was added before the November release (and contains research codes), a message will display prompting the user for conversion to the new codes.

Revised List of ANZSRC Research Codes is now Supported for Assets

November 2021 Management

The revised list of ANZSRC research codes are available for use in Esploro. In the Esploro research hub, both lists are available for input.

ANZSRC Codes	
FIELDS OF RESEARCH	
+ Add Field of Research - + Add Field of Research - 2008 -	
Field of Research	Percent
1 Agricultural biotechnology diagnostics (incl. biosensors)- 300101	33.0%
2 Agricultural marine biotechnology- 300102	33.0%

No records were found.

Revised ANZRC Research Repository

The Socio-Economic Objective list has also been updated.

JOURNAL ARTICLE | OPEN ACCESS | PEER REVIEWED
BMI modifies the association between dietary intake and serum levels of PCBs
 by Tuo Lan, Buyun Liu, Wei Bao and Peter S Thorne
 Environment international, Vol.156, pp.106626-106626
 11/2021
 •This is the first U.S. nationally representative estimate of dietary PCB exposure-We found positive associations intakes and serum levels of PCBs-This association was strongest among normal weight individuals-Among ove individuals, no such association was observed.

Additional Enhancements

- [November 2021 Smart Harvesting](#)

More information was added to the Smart harvesting report.

- **November 2021 Smart Harvesting**
Selection of deduped CDI records was improved.
- **November 2021 Smart Harvesting**
Rule based on affiliation in workflow was implemented.
- **November 2021 Management**
Improvements were made to Handle management.
- **November 2021 Portal SF: 00991888**
ETD and Open Access search scopes can now be disabled from the homepage and search bar
- **November 2021 Portal**
URL markers were added to PDF links to improve GS discoverability.
- **November 2021 ResearcherProfile**
The "Add project" option on the header can now be removed via the portal configuration.
- **November 2021 ResearcherProfile**
The "My public profile link" section will now appear even if the research_profiles_cp option is set to false, so that researchers can access their profiles and edit before the official launch.

Resolved Issues

- **November 2021 Management SF: 00983409**
When creating a set, the default "Set content type" was incorrectly set to "BIB_MMS (not listed)". This was fixed.
- **November 2021 Management SF: 00906911**
When adding members to a set of type "Research assets", the "Completed with warnings" message appeared incorrectly. This was fixed.
- **November 2021 Management SF: 00970791**
(URM-156799) Auto-population of patent information according to patent number was removed, since auto-population by title is more reliable.
- **November 2021 Management SF: 00940408**
Affiliation added by user was not immediately displayed. This was fixed.
- **November 2021 Portal SF: 00964930**
Suppressed assets were displayed in the portal if they were related to non-suppressed assets. This was fixed.
- **November 2021 Portal SF: 00983419**
Files added to a mediated deposit appeared in alphabetical order in the portal, instead of appearing in the order in which they were added. This was fixed.
- **November 2021 Portal SF: 00975059**
Special characters in assets titles were excluded from the asset link displayed in the portal. This was fixed.
- **November 2021 Portal SF: 00897300 00901891 00985388**
Exploro research assets under embargo appeared as "Available Online" in Primo. This was fixed.
- **November 2021 Portal**
When clicking on the homepage without a search, the term stayed on the homepage. This was fixed.
- **November 2021 Portal**
When clicking on the search page, there will no longer be a "*" in the search bar.
