
Events

[Click to play](#)

Duration: 05:54 min

Description	The Events Product Integration presents students with a navigable directory of upcoming events. Students can mark events of interest and see their own custom event schedule. In this session we will demonstrate how to configure an Events integration and deploy it to the app as a Menu Option.	Attachments Handout
Target Audience	New and existing customers with responsibility for managing/maintaining their campusM instance.	
Prerequisites	None
